    <title>Drawing two rectangles on a <b>(canvas)</b></title>

    <p> This example looks like this:</p>
    <p>draws two rectangles on a canvas: a red one and a green one</p>

    <style>
        canvas {
            border: 1px solid gray;
        }
    </style>
    <script async>
        window.onload = init; //call init() once the window is completely loaded
        function init() {
            //#1 - get reference to <canvas>
            var canvas = document.querySelector('canvas');

            //#2 - get reference to the drawing context and drawing API
            var ctx = canvas.getContext('2d');

            //#3 - all fill operations are now in red
            ctx.fillStyle = 'red';

            //#4 - fill a 100x100 rectangle at x = 0, y=0
            ctx.fillRect(0,0,100,100);
```

```
        //#5 - all fill operation are now in green
        ctx.fillStyle = 'green';

        //#6 - fill a 50x50 rectangle at x=25, y=25
        ctx.fillRect(25,25,50,50);
      }
  </script>
